

May 9, 2019

Dear Valued Business Owner:

The St. Charles Chamber of Commerce is excited to announce a new program that we feel will have a significant impact on the promotion of the area. We are working with CGI Communications, Inc. to produce a series of streaming online videos highlighting all our community has to offer its residents, visitors, and businesses. These videos will be integrated with the introduction of our new website in August.

CGI is a leader in online marketing solutions, working with thousands of communities and businesses nationwide. With an easily viewable interface on the official chamber website – [www.stcharleschamber.com](http://www.stcharleschamber.com), the video showcase will engage viewers in learning more about area attractions, economic development opportunities, quality of life, and so much more, many of which are in our Community. The St. Charles Chamber of Commerce is dedicated to highlighting the advantages of living and working in the surrounding communities, and we feel that this program can do just that!

In addition, CGI will be contacting members of our local business community to offer participation in the program, as well as an opportunity to learn more about CGI's innovative new digital media products for businesses.

We encourage you to consider supporting the program, and learning more about all that CGI has to offer.

Best Regards,

James J Di Ciaula  
President/CEO
